# Video Art, Micro Cinema - 2

Twisted Oyster Film Festival and Kinetic Art Projects. Copyright © 2016 Pia Cruzalegui

On behalf of the Twisted Oyster Film Festival Team, I would like to welcome everyone to the 2016 edition.

The Film Festival is only in its 2nd year. It is young and growing with fast excitement and just like last year, TOFF attracted hundreds of video artists and filmmakers from all over the world. With so many video art works, films and filmmakers only few actually made it as official selection.

TOFF 2016 is made possible thanks to the participation of volunteers, sponsors, invited artists and filmmakers, consultants and private collaborators who alongside with me believe in art and independent filmmaking as a profound catalyst of communication and transmitting tales in traditional, abstract and experimental narratives.

As for me, it is always a privilege to be able to offer an outlet for creators to show their work, tell stories through film and spark thought with their video art.

Here at TOFF, we want to be a springboard to the world and we hope you feel proud and excited to take part in this year's programming.

Congratulations!

Yours truly,

*Tia Cruzalegui*

## Message from the Director
